

CML Software

May 2016 - New "Innovation Centre" Opened

CML Software has made the surprise announcement that it is opening a new office, aimed purely at innovating using new technologies, at the historic Cromford Mills, within striking distance of Derby. The first two employees for CML's innovation centre have been hired and the office opens officially in the middle of May 2016.

Al Chetwode, Managing Director of CML Software is quoted as saying "We are delighted to be growing our technology base and we intend that our new offices will help us continue to drive innovation across the estate agency market-place." He adds "This is a very exciting time for CML Software and we can't wait to start seeing the results from the new innovation centre."
